I'm guessing all the information has already been shared/routed through the LSC and the 213-RR has been vetted and on its way to LaMonica for action.

LaMonica – heads up !

To All,

I estimated \$50k in my original request and think that's a good place to start. Average cost on that IA is about \$11k per month. That would be 4.5 months a full time, so I think between the OT and part time work during weekdays (all charged to the Harvey funding), that should last through the year. I'm hoping we're done by then. If y'all think we should request/add more now, that's fine with me. Those were my thoughts.

Thanks,

Derek

Derek,

What is the amount of the requested funding?

Tony, will need to request funding from the ESF10 and the Finance Coordinator will assign an account number.

To All,

Based on last week's request to provide GIS support to the REOC, we approved the contractor to provide that support.

Prior to that approval, I talked to GSA P.O. And received an email from her that also went to the GSA C.O. She advised me that 1) they had discussed, 2) agreed that this work was in accordance with the PWS and 3) funding was on the IA.

My request to you (LaMonica) is to add MA\$ to the IA by whatever method is appropriate, so that these labor hours can ultimately be charged to that accounting line.

Please let me know if you have further questions.

Thanks,

Derek

Good Morning Derek,

Hope all is well and know you're on the move....Reference our discussion last week on GIS support and your discussion with the GSA CO, would you please send LaMonica (coping Tongee) an email summarizing your discussions and subsequent actions to include recommendation or plan to move forward. Call me if you have questions and THANKS!
